

Professional Development Plan- *Revised*

Do you want to be an ECI (infant/ toddler) or ECP (preschool) major? Why?	I want to become a ecp major because I am really interested in working with that age group. I want to know how children think and learn. I know that teachers provide the opportunities to build self confidence for children to achieve their academic goal.
What qualities do you have that will help you be successful working with your chosen age group?	For the past years I have worked with children of different ages. I have learned to observe the process in which they learn and also give them the opportunities to explore, investigate, experiment and express themselves.
What skills would you like to develop that will help you be more effective working with that age group?	I know that children learn in their own developmental stage. I need to learn more of the developmental stage of learning in order to design the appropriate learning skills and appropriate learning for them.
What are your career goals?	Working as a teacher in Pre-K classroom then eventually work my way up to be the lead teacher in a Pre-K classroom
What steps will you take to achieve those career goals?	<ol style="list-style-type: none"> 1. Complete my associate degree 2. Transfer to Brooklyn College to earn my Bachelor's Degree in ECE 3. Work as a licensed teacher for NY State
What steps will you take at BMCC to help you reach those goals?	<ol style="list-style-type: none"> 1. Finish my ECE coursework and all the other courses that I am enrolled in for the associate program. 2. Participate in workshops 3. Build relationships with ECE faculty who can serve as mentors to me in my career
