

- 1) I want to be an ECP Major because I enjoy lesson planning for their developmental needs and watching their progress of growth. I find it more entertaining teaching preschoolers and I can make better connections with them and support their academic learning.
- 2) I am very patient, understanding, and kind. These qualities will help with my age group because it helps to build trust with my students and self confidence and I can teach them how to treat one another with respect and dignity.
- 3) The skills I hope to develop is educating myself on more ways I can help my students outside of the classroom. I want to create a sense of community beyond the doors of my room and make it family friendly and inclusive.
- 4) I would like to open up my own Preschool center one day to provide for all families in all types of social classes.
- 5) My goal is to get my degree, buy a facility , gather employees and ensure they are capable of meeting the needs of all students of all capabilities, create a community for all of those in need that my facility can help , and run my business with integrity.
- 6) I will continue taking my ECE courses through BMCC. I will finish my degree at BMCC. I will then graduate from a 4 year college. Lastly I will find a community of teachers that share my same philosophy so we can help children in need.
