The story follows the adventures of Ichigo Kurosaki after he obtains the powers of a Soul Reaper (Shinigami, literally, "Death God") — a death personification similar to the Grim Reaper — from another Soul Reaper, Rukia Kuchiki. His newfound powers force him to take on the duties of defending humans from evil spirits and guiding departed souls to the afterlife. The anime adaptation includes original storylines not found in the manga with repeated appearances and stories containing these original characters.

Jump magazine also revealed that Burn the Witch, a one-shot from Kubo that debuted in Weekly Shonen Jump in June 2018, will be serialized starting this summer with an anime of its own beginning in the Fall. The story of Burn the Witch takes place in the same world as Bleach but focuses on a group of Shinigami 12 years after the "Thousand-Year Blood War." Also, instead of Japan, Burn the Witch takes place in London.

The anime will cover the "Thousand-Year Blood War," which begins in Chapter 480 of the manga to the end of the series in Chapter 686.

No further details on the anime adaptation was revealed. Bleach fans were devastated when the anime was halted in 2012 after the completion of the "Fullbringer" arc.
