| Housing | -37.9 % | 76 | 88 | -13.6 % |
| Shooting Victims | -75.0 % | 5 | 23 | -78.3 % |

The data above shows the crime in Queens comparing this year (2024) to last year's data (2023). Robbery reports that it increased a lot this year, same with felony assault. This data demonstrates that it's very terrible for the stats to be this high and 2024 is not close to being done. Whatever stats that are lower than 2023's stats will probably increase because the numbers to be similar and I can imagine it terribly increasing.
