

My abstract Art is created with a cardboard box, 2 light switches as the children, a sock for their clothes, yarn for their hair. Some lights I found in my drawer, pennies for the Christmas bulbs, the switch to turn on lights as a gift. Wooden nail file is used for her arms and paper binder for her purse. Sharpener upside down to make her car and 2 pennies. A mini video game from my son's Ipad case. Two hair clips for his arms and some musical symbols stickers I have at home.

This is a boy and girl celebrating Christmas and happy about their presents.
