COURSE DESCRIPTION

This is a course that builds upon the skills introduced in English 101. In this course, literature is the field for the development of critical reading, critical thinking, independent research, and writing skills. Students are introduced to literary criticism and acquire basic knowledge necessary for the analysis of texts (including literary terms and some literary theory); they gain proficiency in library and internet research; and they hone their skills as readers and writers.

Assignments move from close readings of literary texts in a variety of genres to analyses that introduce literary terms and broader contexts, culminating in an independent, documented, thesis-driven, research paper. By the conclusion of English 201, students will be prepared for the analytical and research-based writing required in upper-level courses across the curriculum; they will also be prepared for advanced courses in literature.

Prerequisites and Co-requisites: ENG 101

NO TEXTBOOK FOR THIS COURSE

This is a zero textbook cost course (ZTC) that uses OER (Open Educational Resources), which are accessed through the course in Blackboard.

HOW THE ONLINE CLASS WORKS

This is a synchronous online class on the *OpenLab** platform. We do not have any face-to-face meetings. Each week you will be responsible for completing 5-10 activities. The activities are varied and include reading, listening, viewing, and discussing activities. Your grade will be based on essays, quizzes and your responses to the discussion boards. Each week begins on Monday morning and ends on Sunday night.

***OPENLAB AT BMCC**

OpenLab is an online platform on which the College's students, faculty and staff can come together to learn, work, play and share ideas. This means that almost all our course activities will take place on the OpenLab WordPress site, rather than on Blackboard. You will only be directed back to Blackboard to submit essays and take quizzes. You can also visit your Blackboard course to check your grades in the Grade Center.

INFORMATION ABOUT DISCUSSION BOARDS

Class participation via the Discussion Board makes up a significant percentage of your overall grade (20%). Even in an online course, lively discussions are at the heart of an interesting class. Please lend your voice and ideas to all discussion boards and group blogs. These are the main forums for interaction in an online course and detailed information regarding discussion boards and how they are graded is posted in the COURSE INFORMATION section of our OpenLab class.

COMMUNICATION IN OUR ONLINE COURSE

Although we do not meet face to face in an online course, many avenues of communication will be open to you. I can be easily reached by email at cconway@bmcc.cuny.edu, and will make every effort to respond within 24 hours. Video conference or phone call can be arranged during my office hours or at a mutually convenient time.

INSTRUCTOR PRESENCE IN THE COURSE

I will be checking in on the discussion boards during the week and joining frequently in the conversation. A Questions forum will be open throughout the semester where you can post questions at any time. I will check this forum at least every 48 hours.

RESPONSE TIME FOR GRADING OF SUBMITTED WORK

Weekly discussion board grades will be posted on Tuesday or Wednesday of the following week. Essays will be evaluated within 10 days of submission and possibly sooner. No email submissions will be accepted. All written work must be submitted through the Blackboard course in order to receive a grade.

POLICY REGARDING LATE WORK

Papers must be submitted on their due date. Late papers will be penalized one full grade for every 5 days of lateness. There will be a final cut-off date after two weeks after which late essays will not be accepted.

HOW WORK WILL BE GRADED

Essays will be submitted and graded through the Turnitin feature on Blackboard. Students will receive both text and voice comments on their work. Plagiarized essays will receive a *permanent* grade of F, and the student will be reported to the Student Life Manager for Student Conduct and Academic Integrity. Detailed explanation of how discussion board posts will be graded can be found in Course Information on the OpenLab course site.

BMCC POLICY ON PLAGIARISM AND ACADEMIC INTEGRITY STATEMENT

Plagiarism is the presentation of someone else's ideas, words or artistic, scientific, or technical work as one's own creation. Using the idea or work of another is permissible only when the original author is identified. Paraphrasing and summarizing, as well as direct quotations, require citations to the original source. Plagiarism may be intentional or unintentional. Lack of dishonest intent does not necessarily absolve a student of responsibility for plagiarism. Students who are unsure how and when to provide documentation are advised to consult with their instructors. The library has guides designed to help students to appropriately identify a cited work. The full policy can be found on BMCC's Web site, www.bmcc.cuny.edu. For further information on integrity and behavior, please consult the college bulletin (also available online).
