

LASSI: 'Using Academic Resources (UAR)' Scale

- Students should have “a willingness to use different academic resources such as writing centers, tutoring centers and learning or academic support centers, when they encounter problems with coursework or performance.” (LASSI User’s Manual, 3rd edition, p. 10).
- Possible questions to ask the student:
 - Do you go/have you gone to a resource center (ex: Learning Resource Center, Writing Center, Math Lab, etc.) for guidance?
 - Do you avoid seeking out help? If so, why? (Try to get to the root of the avoidance, which may connect and open up further conversations related to the other elements/scales from their LASSI results)
