Costume/Makeup HW

YOU are going to have the chance to portray a character with costume and/or makeup. Choose a character from a movie, play, book, cartoon, or even television show that is either a **different age** than you, a **different gender**, or a **different type of creature**. However, an object won't work. It has to be a character. It also has to be you NOW. You may choose to model:

- A costume for this character
- A makeup look for this character
- Both a costume AND a makeup look for this character

Once you have your look ready, get someone to take a picture of you ****including a hand with two fingers crossed. That's how we'll know you did it for this class.**** Post your picture into the slide with your name on it. **AR filters do NOT count. This has to be a costume or makeup look IRL.**

Review

- 4 purposes stage lighting
- Demo Room
- Greatest lighting designer of all time?
  - Mother Nature

HW:

- Create your costume OR makeup look, and have your picture taken with your fingers crossed. Insert this picture into the PowerPoint with your name on it. Come to class prepared to tell us about your design
