

## ECE 110 - Professional Development Plan

Do you want to be an ECI or ECP major? Why?	I want to be an ECT major because children are literally the future of tomorrow and it's amazing to see how they progress each day and the best part is that infants are so capable of bringing so much happiness into a room which i absolutely love
What qualities do you have that will help you be successful working with your chosen age group?	I come with lots of patience which is mandatory to have when working with infants ages birth-36 months as they are learning and aren't capable of understanding things the way an adult can
What skills would you like to develop that will help you be more effective working with that age group?	I would like to develop the skill in trying to understand fully what it is that the child may need at the moment.
What are your career goals?	my career goal is to become a full time caregiver to the children birth-36 months
What steps will you take to achieve those career goals?	i am attending college to get my associates degree and on the side accepting jobs around babysitting and caring for children to enhance my skills
What steps will you take at BMCC to help you reach those goals?	i will try taking any extra curriculums that may help me in any way in the field that i desire
