

How To/Demonstration Speech (3-5 min)

How To/Demonstration Presentations (3-5 min)

You will choose a task and explain how to accomplish the task.

You will instruct the audience on how to learn to do this task/lesson.

You must use a prop to demonstrate what you are instructing.

The speech should not involve too many steps and the audience should be able to repeat your task at the end of the demonstration.

Please practice the demonstration with the prop/s so the speech and demonstration are fluid.
