

ECE 110 - Professional Development Plan

Do you want to be an ECI or ECP major? Why?	I want to be an ECI major I want to start as young as infant and toddlers and then probably work my way up during the years. I love kids and they bring joy and peace to me. I just would love to give the same back to the children.
What qualities do you have that will help you be successful working with your chosen age group?	I love to see kids laugh. I just want to be able to bring joy to them as well as teach them how to speak and express what emotions they do not really understand themselves. I know to and how to guide them with what they do not really know or understand. I know of having patience with them as well.
What skills would you like to develop that will help you be more effective working with that age group?	I hope to gain more psychological skills as well as more child developmental knowledge to get more understanding on children and how their brain and them as whole develop.
What are your career goals?	I honestly love children so I really want to become a teacher so I can get a feel on how to work with children. I also want to study psychology and hope to become a school counselor.
What steps will you take to achieve those career goals?	<ol style="list-style-type: none">1. I will finish up my two years at BMCC2. I want to transfer to Brooklyn College3.
