

Name : Selanie M Marte

Do you want to be an ECI (infant-toddler) or ECP (preschool) major? Why?	I would like to be an ECI major because I believe I can make a difference in young children's lives. I have been around kids all my life and I love watching them grow up as I teach them things they can carry with them for life.
What qualities do you have that will help you be successful working with your chosen age group?	I have had internships in the past working with infants and toddlers and I worked in a clinic as a patient representative where I also worked with children. I am very patient and understanding.
What skills would you like to develop that will help you be more effective working with that age group?	I would like to gain more knowledge on being able to distinguish children that are on the spectrum of possibly having a disability.
What are your career goals?	After I receive my associates I would like to transfer to another college to achieve my bachelors and eventually open up my own day care center.
What steps will you take to achieve those career goals?	<ol style="list-style-type: none"> 1. Complete my four-year degree 2. Intern at a head start or day care center 3. Work in a day car for 2- 5 years 4. Take up a business course 5. Get ready to open up my day care!
What steps will you take at BMCC to help you reach those goals?	<ol style="list-style-type: none"> 1. Speak to my academic advisor, professor, or accessibility office into directing me to achieving my next steps. 2. To get an internship through bmcc

	<ol style="list-style-type: none">3. Look for a 3-6 month business course4. Research in taking the next steps to open up my business
