

ECE 110 - Professional Development Plan

Do you want to be an ECI or ECP major? Why?	I want to be an ECP major because this is the stage where young people learn how to read, write, and spell. So, I want to help them have fun while learning new things.
What qualities do you have that will help you be successful working with your chosen age group?	Before I was interested in the ECE major, I was actually going to major in Art Education, where I would become a art teacher at an elementary school for grades kindergarten through to the second grade, because that's the age group I was aiming for and plus I wanted these young children to expand their creative side for the world to see.
What skills would you like to develop that will help you be more effective working with that age group?	The skills I would like to develop that can help me be more effective while working with that age group is having patience, being more creative and thinking outside the box, and taking things slow and easy.
What are your career goals?	My career goals are to be the best teacher I could be to the next generation that is rising and help follow the right paths.
What steps will you take to achieve those career goals?	The steps I will take to achieve that career goal is by creating lessons that they can stick with them for the rest of the time they are in school.
What steps will you take at BMCC to help you reach those goals?	The steps I would take at BMCC to help me reach that goal is to act for advice from my professors and advisor.
