

# WHERE I'M FROM

By:komila ibrokhimova

I am from notebooks

From pretty and inspiring to look at

I am from the beige corner house

I am from the tree, the sticks

I am from a board game and inspiring

From oliya

And Bekhruz and shakhzoda

I am from writing our way through

And having connection with people

From writing

and drawing

I am from islam

Muslims believe that the Qur'an contains the literal word of God, which were spoken in Arabic. Their written form is considered the purest expression of God's intent.

I'm from Uzbekistan, the well known mosques

From shashlik and samsa

From my mom not being happy in Uzbekistan and my dad moving to a new country for her.

I am from the journal where everyone writes their feelings.
